BEAUTIBOND BONUS* KIT

- Dual functional monomers providing equally high bond strength to both dentin and enamel
- Bond strengths comparable to leading multi-component brands
- Single coat for shorter working time
- Efficient 30 second application
- 5µm film thickness
- HEMA-free
- No mixing required
- Convenient unit dose

ANY ONEGLOSS PS KIT

- Aluminum oxide polishers are disposable
- Available in three different shapes
- Complete kit with stainless steel CA mandrels
- Durable enough to withstand polishing an entire arch
- Use OneGloss for: composites, temporary crowns, removal of orthodontic cements and removal of stains from enamel

ANY BEAUTIFIL II KIT

- Eight year University of Florida clinical study showed no failures, no post-operative sensitivity and high retention of color match and luster
- S-PRG (Surface Pre-reacted Glass Ionomer) – ability to recharge fluoride
- Appropriate for patients with a high caries index
- Excellent fluorescence and light diversifying aesthetics
- Eliminates shade variations associated with polymerization
- High level of radiopacity
- Enamel-like surface hardness

ANY MONOCEM KIT

- New and improved – 3-1/2 minute self-cure or 20 second light cure setting time
- Bonds to all substrates with high retention values
- Eliminates sensitivity and has high fluoride release
- Moisture tolerant and two second tack cure for easy clean-up
- Dual cure
- 100% polymerization
- Very low film thickness (12µm)

SUPER-SNAP RAINBOW TECHNIQUE KIT

- Elastic silicone shank mount for easy placement of the disk onto the mandrel
- Manufactured without a metal center
- Very flexible, ultra-thin disks allow easy access to interproximal areas
- Two sizes – four grits (silicon carbide and aluminum oxide)
- Use Super-Snap for: composites

*BeautiBond Bonus 10 free are included with the kit.
