FUNCTIONAL

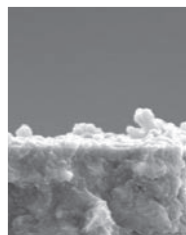

Beautiful-Bulk Restorative is the ideal metal-free material for bulk fill posterior restorations. This highly filled material (87.0%) offers low shrinkage (<1.7%) and wear resistance, 4mm depth of cure, as well as the combination of superior compressive and flexural strength for maximum durability. In addition, **Beautiful-Bulk Restorative's** esthetics are unmatched by any competitor.

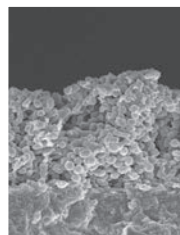

Jack Griffin, DDS

BIOACTIVE GIOMER TECHNOLOGY INSIDE

Shofu's proprietary GIOMER Technology gives **Beautiful-Bulk Restorative** long-term ion exchange for anti-bacterial and acid neutralizing effects to minimize problems caused by plaque and biofilm which may lead to restorative failure. A Univ. of Florida Dental School clinical study showed no secondary decay or failures after 8 years! **Beautiful-Bulk Restorative** is the only product in this market segment that gives the bioactive and therapeutic benefits of GIOMER Technology and the clinically efficiency of posterior bulk filling.
