BeautiLink SA is a self-adhesive, dual-cured resin cement specifically designed for use with zirconia restorations.

This cement has been exclusively formulated to provide superior retention and marginal integrity, ensuring a strong bond that lasts for your zirconia restorations. It is made using the proprietary bioactive Giomer Technology, which prevents secondary decay by providing anti-bacterial and acid-neutralization effects.^{1,2} The cement has an ideal viscosity that makes it easy to handle, and clean-up is quick and simple. You can choose from three shades, Clear, Ivory, and an Opaque shade that is excellent for masking stains and darker preps.
