# Super-Snap X-TREME

FINISHING & POLISHING  
ULTRA-GLOSS PERFORMANCE KIT

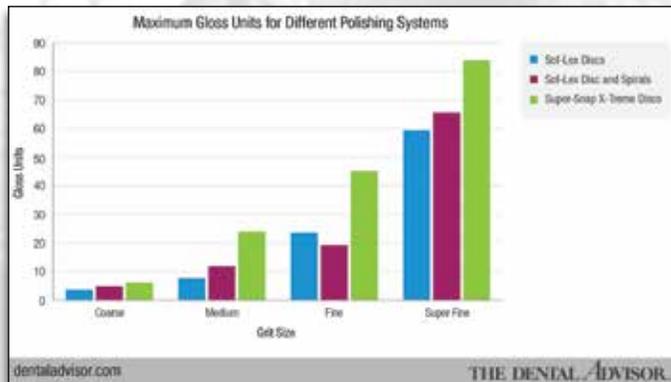

400x 200µm  
3D semispherical coating  
Super-Snap X-Treme Red Disk

## For X-Treme Ultra-Gloss Results

The Ultra-Gloss Performance Kit incorporates the essential tools to complete quick, easy and highly aesthetic restorations. A system guaranteed to provide patients with the wet, glossy look they desire. Kit contents include 225 disks and more!

- **4-step, color coded disk system for contouring, finishing and polishing**
  - Integrating Super-Snap coarse/medium disks with Super-Snap X-Treme fine/superfine disks
  - X-Treme disks offer greater thickness for increased durability, tactile feel and flexibility without warping
  - New 3D semispherical grit reduces clogging, secondary scratches and achieves X-Treme gloss results
  - Gouging eliminated – no metal center
  - Two sizes - Four grits (aluminum oxide and silicon carbide)
- **DirectDia Paste - a 20% diamond polishing paste for high luster polishing**
  - Easily distinguishable green color and a pleasant lime flavor
- **Super-Snap Super Buff Disks – synthetic velvet clothed disk**
  - Easily retains paste while polishing
  - Very light touch needed to produce a lustrous shine

\*Test results on file. All trademarks belong to their manufacturers.

Super-Snap X-Treme produced 41% greater gloss than Sof-Lex Discs and 29% greater gloss than Sof-Lex Spirals
